

NCSI Cross-State Learning Collaboratives At-a-Glance

Social & Emotional Outcomes

September 29–30, 2015 - Chicago, IL

The Social and Emotional Outcomes Learning Collaborative will establish a network of shared leadership and peer support among states in order to identify issues and opportunities in improving social and emotional outcomes for infants and toddlers with disabilities. The Collaborative will build capacity in states to support achievement of state-identified measurable results (SiMRs) for this content area, with a focus on Part C programs.

Language & Literacy

October 14–15, 2015 - Los Angeles, CA (focus on Part B)

November 3–4, 2015 - Washington, D.C. (appropriate for Parts B and C)

December 9–10, 2015 - Guam (appropriate for Parts B and C)

The Language and Literacy Learning Collaborative will support states with work related to the State Systemic Improvement Plan (SSIP), and other priority areas, to promote increased state capacity in evaluating the efficacy, fidelity of implementation, and impact of the implementation of evidence-based practices/programs (EBPs) in language and literacy, from birth through adolescence. The Collaborative will build capacity in states to support achievement of state-identified measurable results (SiMRs) for this content area, with attention to both Part C and Part B programs.

Graduation and Post-School Outcomes

October 20–21, 2015 - Salt Lake City, UT

The Graduation and Post-School Outcomes Learning Collaborative will build state capacity to develop, implement, and evaluate State Systemic Improvement Plans (SSIPs), based on state priorities to address graduation and post-school outcomes; including a focus on identifying strategies to leverage evidence-based practices (EBPs) for improving graduation rates and post-secondary outcomes for students with disabilities. The Collaborative will build capacity in states to support achievement of state-identified measurable results (SiMRs) for this content area, with a target on Part B programs.

Family Outcomes

November 16–17, 2015 - Houston, TX

The Family Outcomes Learning Collaborative will establish a network of shared leadership and peer support among states to identify issues and opportunities in improving family outcomes practices; namely that families understand their child's strengths, abilities, and special needs, know their rights and advocate effectively for their children, help their children to develop and learn, have sufficient support systems, and successfully access desired services, programs, and activities in their community. The Collaborative will build capacity in states to support achievement of state-identified measurable results (SiMRs) for this content area, with a focus on Part C programs.

Results Based Accountability

November 18-19, 2015 - Houston, TX

The Results Based Accountability Learning Collaborative will build capacity of State Education Agencies (SEAs) in the implementation of a comprehensive general supervision system that serves to improve outcomes for students with disabilities, while maintaining compliance under the IDEA; including a focus on increasing capacity to effectively monitor for compliance **and** results, and to use that information to provide targeted evidence-based TA and professional development. This collaborative will build capacity to assist states in achieving alignment of general supervision systems and the vision of Results Driven Accountability (RDA).

Mathematics

December 1-2, 2015 - Chicago, IL

The Mathematics Learning Collaborative supports states with work related to State systemic Improvement Plans (SSIPs) and other priority areas to address improvements in the state infrastructure to support LEAs in implementing, evaluating and measuring impact of evidence-based practices/programs (EBP) in mathematics. The Collaborative will build capacity in states to support achievement of state-identified measurable results (SiMRs) for this content area, with a focus on Part B programs.

School Turnaround

Week of January 11, 2016 - Phoenix, AZ*

The School Turnaround Learning Collaborative will support states in recognizing areas of opportunity and need in establishing and or refining highly effective pro-turnaround environments for the success of students and young children with disabilities, including in the state's lowest performing schools. A particular focus will exist on necessary infrastructures and alignment across all levels of the system to support state, district, and school work. Content in this Collaborative will include Evidence-Based Practice in core content areas (e.g., Math, ELA) as well as the critical attributes of a system under the auspices of continuous improvement.
