

Progress Towards Outcomes 2022-2023

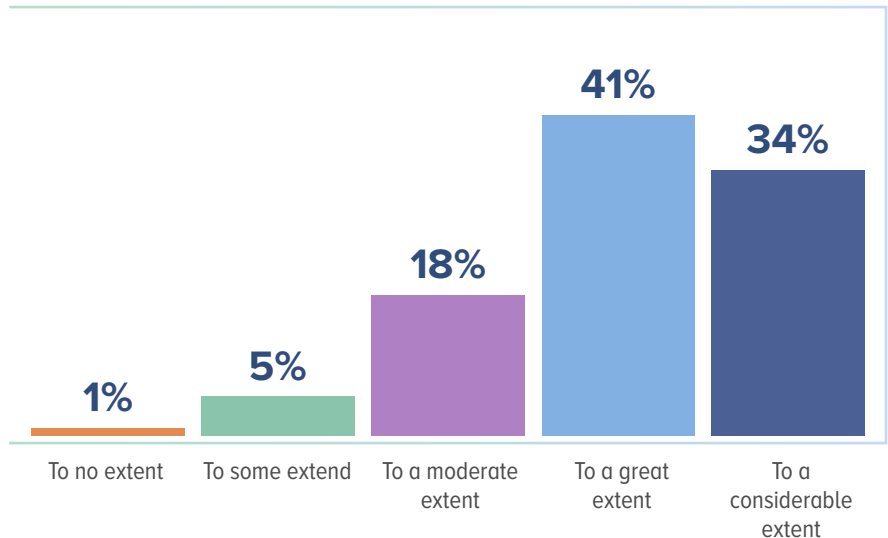

Question: Please rate how much your capacity has increased in the following areas as a result of working with NCSI. This includes all technical assistance received from NCSI.

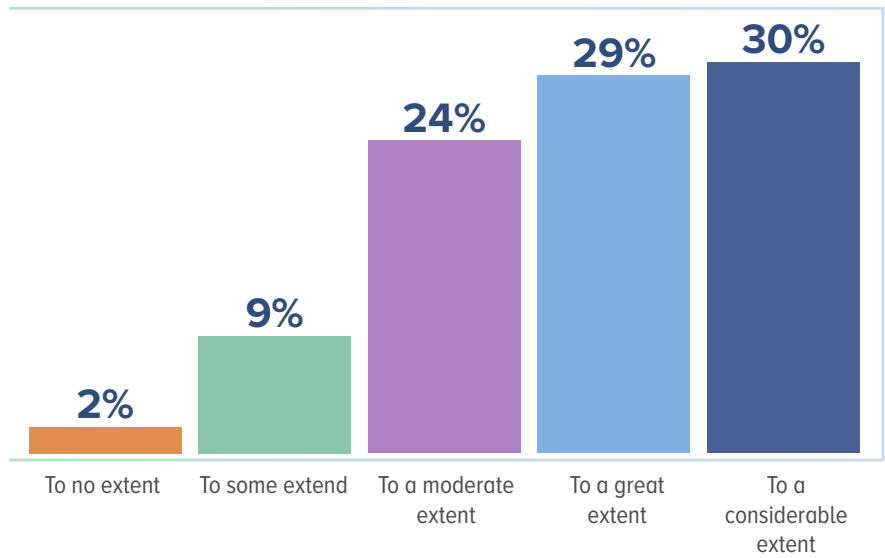

1 Increased capacity of SEAs to align with broader general education initiatives to ensure ESSA and IDEA implementation best supports the needs of CWD. (n = 313)

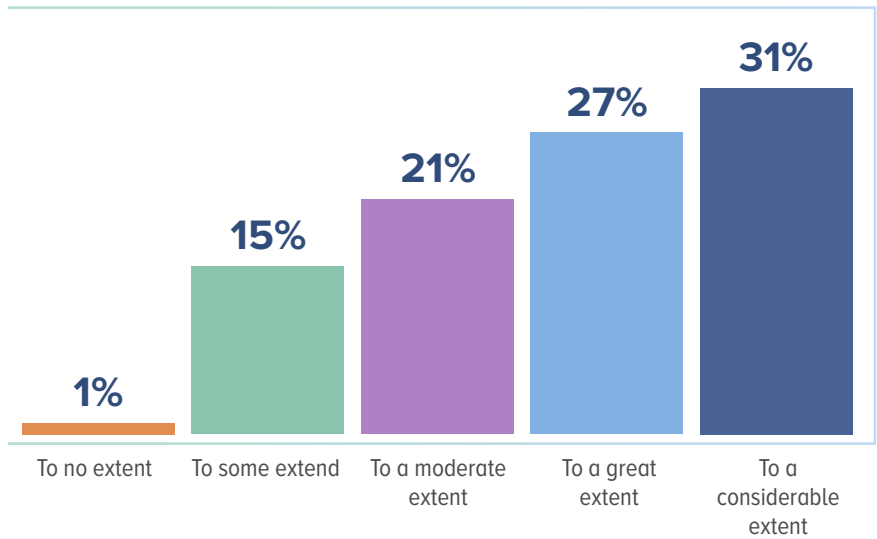

2 Increased capacity of SEAs to effectively implement their general supervision systems that serve to improve results for CWD, while maintaining compliance with the IDEA. (n = 367)

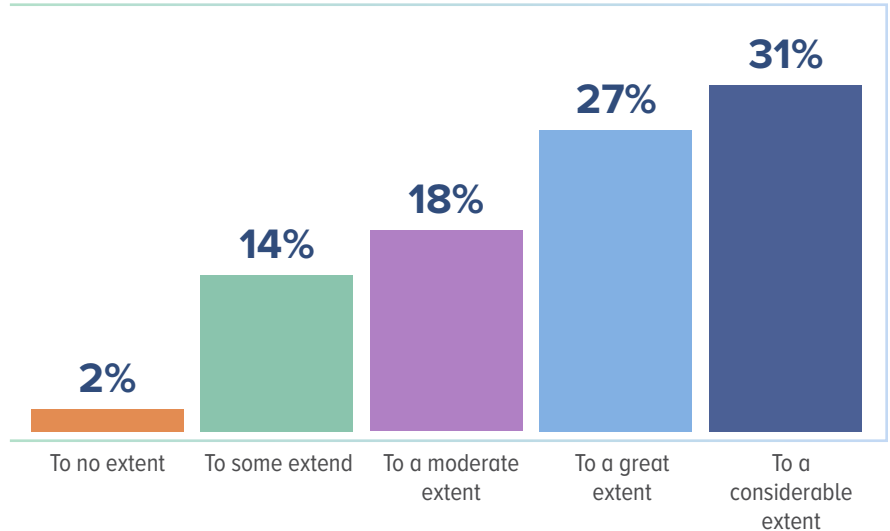

3 Increased capacity of SEAs to effectively implement, evaluate, and revise (as necessary) their SSIPs and ensure progress toward meeting their SIMR. (n = 290)

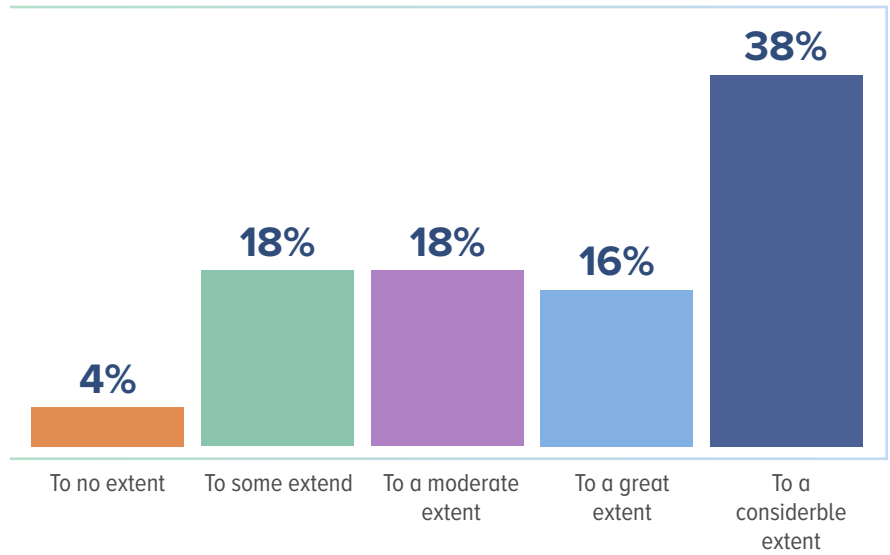

4 Increased effectiveness of SEAs in meaningfully and authentically engaging diverse State and local stakeholders in ways that will support the effective implementation of ESSA and IDEA. (n = 296)

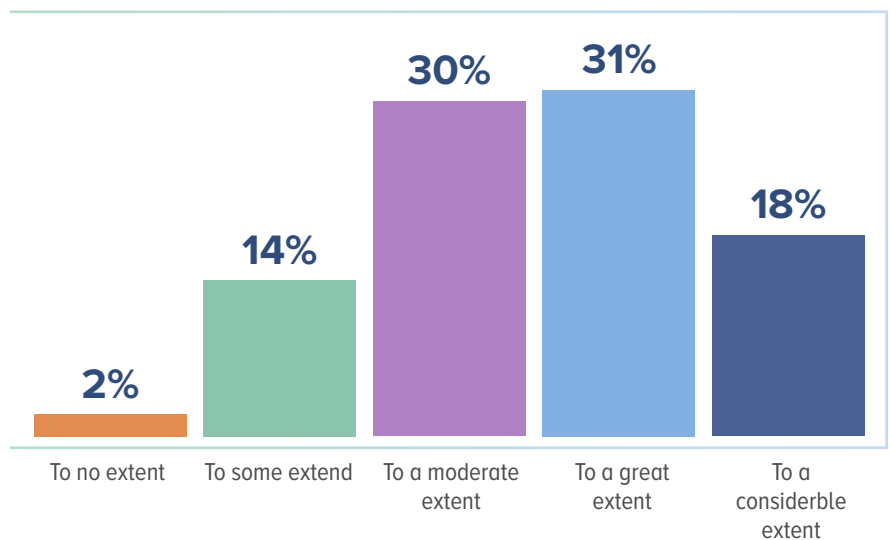

5 Increased capacity of SEAs to support LEAs in selecting and implementing EBPs within frameworks (e.g., MTSS such as PBIS, RTI, and others). (n = 339)

6 Increased capacity of SEAs to fully engage families, including partnerships with OSEP-funded parent centers and the OESE Statewide Family Engagement Centers in the implementation of systemic improvement efforts. (n = 336)

7 Increased capacity of SEAs to deliver effective TA to LEAs using an aligned TA model grounded in implementation and improvement sciences through collaboration with OSEP-funded TA centers. (n = 236)

8 Improved access to objective information for families and youth with disabilities on the range of quality educational options and supports. (n = 282)
